## *R2600 Family Service Contracts Now Available From Freedom!*

For the first time, users of R2600 family analyzers, including the R2600, R2625 and R2670, can obtain service contracts from the original manufacturer - and at an extraordinary price!

One-year service contracts are now available for \$1,200 per unit, which includes a calibration as part of the initial evaluation. And if you should choose to purchase an R8000 or R8100 during the term of the service contract, the full \$1,200 will be applied to your purchase price.

To request a service contract or request more information, contact you local representative or send an email to [service@freedomcte.com](mailto:service@freedomcte.com).

Pricing above is for U.S. based customers. Customer is responsible for shipping charges to and from Kilgore, Texas.

2002 Synergy Blvd., Suite 200,  
Kilgore, TX 75662  
(903) 985-8999
